

Alberta Artistic Swimming Deliver of Coach Courses

Alberta Artistic Swimming recognizes that coaches from across Alberta will look to take coaching courses each year. In order to provide some consistencies with delivery, so that coaches and clubs can anticipate when and where courses will be delivered, the following plan will be followed.

Based on statistics of past course registrations, Alberta Artistic Swimming will offer one AquaGo! annually and one Competition Introduction annually. These courses will alternate between the north and the south, where one course will run in the south and the other course will run in the north, the following year the courses will switch. Generally this means Edmonton and Calgary.

On occasion, there is high demand for one or both courses. When this occurs, Alberta Artistic Swimming may attempt to offer a second course as required. However confirmation of a second course will only happen if the coordination of a facility and course conductor is achievable.

If in the event any given course has a much larger registration of participants not from the community in which it is being delivered, Alberta Artistic Swimming may attempt to change the location closer to or in the community of which the larger registration of participants are from. However confirmation of the course change will only happen if the coordination of a facility and course conductor is achievable.

Alberta Artistic Swimming will be aiming to post the course dates and registration forms by mid- summer, we encourage clubs and coaches to develop a habit to look for the dates on the website and plan accordingly. Registration deadlines will be early in the event Alberta Artistic Swimming may consider changes.
